

Therapy Brands Closes Investment from Lightyear Capital and Oak HC/FT to Accelerate Growth

Proven Management Team of Comprehensive Healthcare Information Technology Platform for Mental & Behavioral Health Providers to Continue to Drive Growth

Birmingham, AL, July 24, 2018 – Therapy Brands (the “Company”), a leading provider of mental and behavioral health software, today announced a majority investment from investment funds affiliated with Lightyear Capital LLC (“Lightyear”), a New York-based private equity firm investing in financial services companies, and Oak HC/FT, a venture growth-equity fund investing in tech-enabled healthcare and financial services companies. Providence Strategic Growth (“PSG”), Therapy Brands’ previous lead investor, will retain a significant minority investment going forward. Greater Sum Ventures (“GSV”) will also retain a minority investment going forward. With this transaction, Lightyear becomes the Company’s lead investor, followed by Oak HC/FT, PSG, GSV and a group composed of Therapy Brands’ Founder and CEO Shegun Otulana, Chairman Ross Croley, other members of management as well as other investors. Terms of the transaction were not disclosed.

Originally founded as TheraNest in 2013, the Company has capitalized on a number of secular macro growth trends in mental and behavioral health markets, including heightened public awareness, expanded coverage by insurers, outcomes-based payment and care delivery models, and the recognition of the impact of mental health on the overall cost of care. Therapy Brands’ comprehensive information technology platform addresses the highly fragmented and underserved practice management needs of mental and behavioral healthcare professionals. By providing several solutions, including practice management and electronic health records, payments, revenue cycle management, data collection and reporting solutions to the increasing number of practitioners and organizations in these markets, the Company has allowed professionals in both large and small practices to spend less time on the administrative burden of practice management and more time treating patients, improving outcomes and growing their businesses.

“We are excited to partner with Shegun and the management team at Therapy Brands,” said Mark F. Vassallo, Managing Partner of Lightyear. “Therapy Brands reflects our continued focus on investing at the intersection of financial services and healthcare. We believe the Company is well-positioned to capitalize on the market trends in payments and in mental and behavioral healthcare.”

“Therapy Brands has built an innovative SaaS platform management solution aimed at tackling a critical concern in mental and behavioral healthcare: managing timely, complex tasks while

delivering superior quality of care,” said Andrew Adams, Co-Founder & General Partner of Oak HC/FT. “We look forward to working with Shegun and the Therapy Brands team, as they roll out their technology platform to new customers and expand reach into adjacent markets.”

“We are engaged in a very significant period of expansion for the business, having added thousands of new customers organically since we entered the market, and we expect to continue this trend of customer growth as practitioners migrate from manual processes and inadequate solutions to our comprehensive software platforms,” said Mr. Otulana. “We continue to implement growth initiatives to add new customers to the platform and provide existing customers new features and additional functionality. In addition, we are investing in new product development and exploring opportunities for add-on acquisitions. We are pleased to welcome Lightyear and Oak as investors and look forward to partnering with them as we continue to serve our customers.”
